Project Title	Bookmate: A Chatbot Companion For Book Recommendations
Maximum Marks	2 Marks

Data Collection Plan & Raw Data Sources Identification Template

Elevate your data strategy with the Data Collection plan and the Raw Data Sources report, ensuring meticulous data curation and integrity for informed decision-making in every analysis and decision-making endeavor.

Data Collection Plan Template

Section	Description
Project Overview	To develop a sophisticated chatbot, "Bookmate," that leverages AI and machine learning to provide personalized book recommendations to users based on their preferences, reading history, and real-time queries.
Data Collection Plan	To train and improve the accuracy of Bookmate, we will require a diverse and comprehensive dataset. This dataset should include Book Metadata
Raw Data Sources Identified	Gathering Data from: User-Generated Data: Collect user preferences, reading history, and feedback to personalize recommendations. Book Metadata from Libraries and Publishers: Access detailed information about books, including genre, subject matter, and publication date.

Raw Data Sources Template
